SUMMARY

Software professional delivering reliable systems with Java, Object-Oriented Programming, Algorithms & Data Structures, Design Patterns, Unit Testing and Integration Testing, Code Review, Git, SQL.

EXPERIENCE

Software Engineer — Example Labs

- Delivered production features using Java, Object-Oriented Programming, Algorithms & Data Structures, Design Patterns, Unit Testing.
- Automated testing, documentation, and releases with Integration Testing, Code Review, Git, SQL.

TECHNICAL SKILLS

Core: Java, Object-Oriented Programming, Algorithms & Data Structures, Design Patterns, Unit Testing

Tools: Integration Testing, Code Review, Git, SQL

PROJECTS

Software Delivery Platform

Implemented an end-to-end project using Java, Object-Oriented Programming, Algorithms & Data Structures, Design Patterns, Unit Testing, Integration Testing, Code Review, Git, SQL.

Education: B.Sc. Computer Science — Synthetic University
