SUMMARY

ML Engineer professional delivering reliable systems with Python, Machine Learning, Deep Learning, PyTorch, TF and Model Deployment, Docker, FastAPI, Git, Linux.

EXPERIENCE

ML Engineer — Example Labs

- Delivered production features using Python, Machine Learning, Deep Learning, PyTorch, TF.
- Automated testing, documentation, and releases with Model Deployment, Docker, FastAPI, Git, Linux Administration.

TECHNICAL SKILLS

Core: Python, Machine Learning, Deep Learning, PyTorch, TF

Tools: Model Deployment, Docker, FastAPI, Git, Linux Administration

PROJECTS

ML Engineer Delivery Platform

Implemented an end-to-end project using Python, Machine Learning, Deep Learning, PyTorch, TF, Model Deployment, Docker, FastAPI, Git, Linux Administration.

Education: B.Sc. Computer Science — Synthetic University
