EDUCATION

M.Sc. Computer Science — Stanford University, 2022

B.Sc. Mathematics & Statistics — UC Berkeley, 2020

EXPERIENCE

Senior Data Scientist — Apex Analytics, 2022–Present

- Built end-to-end Machine Learning pipelines using Python, Pandas, and Scikit-learn to predict customer churn (AUC 0.91).
- Developed XGBoost and LightGBM ensemble models, reducing false-positive rate by 18%.
- Deployed models via Docker containers on AWS using FastAPI for real-time inference.
- Maintained Data Visualization dashboards with Matplotlib and Seaborn.

Data Analyst Intern — DataVault Inc., Summer 2021

- Wrote complex SQL queries against PostgreSQL databases to support product analytics.
- Cleaned and wrangled 50 GB datasets with NumPy and Pandas.

SKILLS

Languages: Python, R, SQL, Bash Scripting

ML/DL: Machine Learning, Deep Learning, Scikit-learn, TensorFlow, PyTorch, XGBoost, NumPy, Pandas

Statistics: Statistics, Probability Theory, Linear Algebra, Feature Engineering

Infrastructure: Docker, AWS, Git, FastAPI

PROJECTS

NLP Sentiment Classifier

Fine-tuned a DistilBERT model for Natural Language Processing on product reviews (F1=0.88). Used PyTorch, Transformers.

Time Series Forecasting

Built LSTM model for Time Series Analysis of energy consumption data. Used TensorFlow, Pandas.

CERTIFICATIONS

AWS Certified Machine Learning — Specialty, 2023

Google Professional Data Engineer, 2022
